Mike -

I found out that the alternate access is not a good permanent solution. I am working on a resubmittal for your review, which I hope to get out the door by tomorrow. I had hoped for better news to send you, but it is what it is. Looks like the workload is not getting any lighter. Anyway, I hope you guys are all doing OK down there. I'll have that revision to you soon.

Garth

Michael - Before I send you the e-mail we spoke about yesterday I want to make a trip down to the area and talk to the guys to make sure I'm saying the right thing.
